Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Examiner acknowledges receipt of IDS filed 12/12/05, amendment and remarks filed 12/21/05. Claims 1-68 are pending.

1. The indicated allowability of claims 1-21 and 23-34 is withdrawn in view of the rejection below.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1-68 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. This is a written description rejection.

To satisfy the written description requirement, applicant must convey with reasonable clarity to one skilled in the art, as of the filing date that application was in possession of the claimed invention. There is no description in the specification for each m and $n > 5$

The greater than 2 or greater than 3 for m and n is open ended. The specification supports $m + n$ to be 5 and support is not found for greater than 2 or 3 that is open ended. Thus, for example, claims employing m at a value of say 5 and greater is neither described nor exemplified. The specification does not inform the public of the limits of the monopoly

asserted. Similarly, claims employing n at a value of say 5 and greater is neither described nor exemplified. The expression provided in the specification paragraph [0034] represents only an invitation to experiment regarding the possible m and n for the cross-linkable components claimed in the instant application.

4. The rejection of claims 35-68 under 35 U.S.C. 112, in view of the preventing language is withdrawn in light of the amendment to the claims.

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

6. Claims 22 and 56 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

It is not clear how sulfhydryl electrophilic group would form a thioester and thioether with the sulfhydryl nucleophilic group.

Although applicants indicate that the dependency is proper, the question raised above respectfully requires clarification.
